Avolites Diamond 4 ran the Hippotizer media server controlling 10 G-LEC Video surfaces, forming the backdrop around the stage of the main venue at the 2006 Montreux Jazz Festival. The lighting rig of Casino de Barrière was also controlled by an Avo Diamond 4.

“We needed this element of the system to be flexible and easy to programme... and that’s why Diamond 4 was chosen.”

D4 programmer, Peter Haeusler
